In addition, we have a closed warehouse available.

Vessels launch and retrieval times: every day from 08h30 to 20h30. Please (provide us with an advance notice of 12h in case you need to arrange a departure to the sea).
Phone: +34 667 908 972

**Just as easy
as calling &
sailing**

ADVANTAGES:

> ALL INCLUSIVE

The price includes: unlimited launching of the boat and its removal, ramp fee, as well as cleaning of the hull and motor with fresh water on each return of the boat to its location.

> EASY

We are operative throughout the year. With a simple call, you will have your boat ready to sail.

> BETTER CONSERVATION

Your boat is kept in a secure compound, protected from the sunlight, salt, sea elements and weather conditions. This all extends the life of your boat.

> COST SAVING

Save your money on annual maintenance. Your boat will be kept in perfect condition the whole time.

> NO MORE ANTIFOULING

Keep the painting of your boat in perfect condition with no need of anti-fouling.

> EXCLUSIVE SERVICES

Enjoy the same advantages as the clients of Marina Nou Fontana (bathrooms, changing rooms, seagoing, water, electric light...) and other services for your boat (repairing and maintenance).

> COMFORT

The storage area is situated just in one step from the sea. In addition, you have a preferential access to the ramp, without any queues or waiting. And, of course, you can enjoy your exclusive boarding point.

WHAT IS A DRY DOCK STORAGE?

IT'S AN INSTALLATION WHERE YOUR BOAT IS KEPT DRY, THAT ALLOWS YOU TO KEEP YOUR MONEY ON ITS MAINTENANCE. AND, WITH A SIMPLE CALL, YOU WILL HAVE YOUR BOAT READY TO SAIL.

HOW DOES IT WORK?

With just a simple call, you get in touch with us, providing us with the time (from 08:30 am to 08:30 pm) and day when you would like to have your boat ready to sail and we take care of everything. We indicate you the exclusive boarding point inside the Marina Nou Fontana-Jávea port and leave the boat ready to be used, clean and with a full tank of fuel (optional). At the agreed time, when you are back to port, we will be waiting for your return in order to take away your boat to the dry land until the next sailing date. It's strongly recommended to give a minimum of 12h notice in advance (24 hours in advance in high season) to arrange your next sailing.

WHAT SERVICES ARE INCLUDED?

The ordinary contract of Dry Dock Storage includes the storage and custody of the boat in our facilities, transfer (round trip) on a trailer to the area of the port ramp, and the launching and removal of the boat as many times as requested by the client, when it's in accordance with the service conditions. In addition, the contract includes a special service of fresh water rinsing of the boat bottom and the motor after each trip and, if it's required, filling the fuel tank. We also start the engine of the vessel before each launch requested by the Customer and check the corresponding fluid levels as well as the battery. Please check other services we offer.

WHAT HAPPENS IN CASE OF BREACH OF THE RULES?

In case the Customer does not respect the reserved retrieval hours of the vessel when it is in the water ready to sail, and does not arrive within the period granted, the vessel will be returned to a dry-dock. For this reason, it is recommended to be in the embarkation area 15 minutes in advance.

WHAT IS THE LENGTH OF THE BOAT TO BE TAKEN AS A REFERENCE TO APPLY THE TARIFF?

The valid measure for this type of contract will always be the real one and not that you have indicated in the documentation. On the day when the boat enters our facilities, our staff will carry out a measurement in order to verify the data sent by the client. If there is any discrepancy, it will be recalculated.

IS IT NECESSARY TO KEEP MY BOAT INSURANCE UP TO DATE, EVEN IF THE INSTALLATION IS ALREADY GUARANTEED?

The boat must have the current insurance certificate. Otherwise, you can't access the port without having provided us with the updated receipt.
